## FORESTRY BOARD GIVEN \$48,000 FOR FISCAL YEAR

The sum of \$48,000 for general expenses for the fiscal year beginning July 1, 1912 is granted the board of agriculture and forestry by the committee on allotments of the conservation fund, which met at the Governor's office this morning. Of this sum \$4000 comprises the remainder of the appropriation for the last year, which the board has not yet used.

In addition a special allotment of \$4000 is made for the construction of animal quarantine stations at Hilo and at Kahului, on Maui. The animal quarantine station at Honolulu, as extended by the \$1000 appropriation authorized by the committee two months ago, is considered sufficiently large to handle the work at this point for the next twelve months, at least.

The committee made a number of allotments on May 13 for the new fiscal year, but those were tentative, as it was impossible to obtain accurate information as to the amount of the tax receipts available. The taxes are in now and the board of agriculture and forestry has had time to investigate its requirements definitely and fully.

The only items modified by the committee were those relating to the board of agriculture and forestry, the two allotments previously made, \$42,000 and \$1000 being combined and \$1000 added, making a total new appropriation for general expenses of \$44,000.

The scope of the veterinary and entomological work is to be extended materially under the increased funds at hand. The need of this extension Governor Frear says, has been realized for some time, but the necessary allotments for it has been delayed until sufficient funds were assured.

Those present with the Governor at this morning's meeting were J. P. Cooke, Marston Campbell, Dr. A. V. Wilcox of the federal experiment station, and three members of the board of agriculture and forestry.

## ARMORY FUNDS NOW IN SIGHT

Fourteen thousand dollars should soon be made available by the action to be taken on Saturday noon, at which time the city and county board of supervisors will meet and pass to a second reading a special appropriation for an armory building.

Following the favorable report of the ways and means committee, the board took immediate action in regard to assisting the Territory in the erection of a suitable building for the Hawaii National Guard.

The appropriation will pass a final reading and be available by the latter part of the month.

The matter of selection of the lowest bidder for a complete set of brass band instruments will be determined following the recommendation of the ways and means committee. Two local firms entered the lists to furnish the members of the city and county band with a new equipment of instruments.

The meeting to be called for Saturday is expected to bring to the fore several bidders among local contractors, who will be in the market to furnish a curb for Kalakaua avenue, for which improvement the board has passed an appropriation of three thousand dollars. The award of the contract will be determined by the road committee.

Contractor John H. Defries, who submitted the lowest bid for the construction of the Moanalua-Puuloa road, is expected to be awarded the contract for this strip of three miles of highway at the next meeting of the board. Labor claims and general expense bills which have been accumulating at the clerk's office will be passed, much to the joy of a large force of city and county employees.

## SEVEN BOYS ARRESTED AS BICYCLE THIEVES

With the arrest of seven alleged bicycle thieves yesterday afternoon and this morning, Captain Kellett thinks that he has put an end to the epidemic of bicycle thefts that has been prevalent in the vicinity of Aala Park for the past week. The alleged offenders are Japanese, Chinese and Hawaiian boys who have been making a practice of taking bicycles and "loaning" them to their friends.

The following were arrested and will be taken here. Police Judge Monarratt next Monday morning. Jas Kanui, three charges; Lee Muk, Chang Chong, three charges; I. Tami, one; Ah Wood, O. Kamikani, and J. Yasunaga.

## REAL ESTATE ITEMS

Dr. Hutchinson, sales manager of the Kaimuki Land Co., reports having sold this week four lots at Ocean View for \$2200 cash, or at the rate of \$550 a lot.

J. R. Galt has bought from J. L. Fleming his lately reported purchase of a large strip of land at Liliha and Wylie streets. The price was \$5000. It is probable that a fine residence will be erected on the land.

The army transport Logan will arrive here at noon tomorrow, according to a wireless received by the depot quartermaster this morning. She will leave for the Philippines Saturday morning.

The Logan carries only casuals this trip. Several officers are coming on her for station here.

## Headless Skeletons Found; Frightened Laborers Flee

Grisly Relics Uncovered on the  
Site of New Palama Set-  
tlement House

Four skeletons, two of them headless, which were dug up yesterday afternoon by Japanese laborers employed upon the excavation for the new Palama Settlement house, caused some excitement for a few moments after their disinterment, and have since been the cause of much conjecture and comment as to their identity and presence in the locality.

No fragments of clothes or other effects were found along with the skeletons, which crumbled to small pieces shortly after their exposure to the air. The four skeletons lay side by side, and when the relics were uncovered, the laborers threw down their spades and fled.

After mingled threatnings and cajoleries, the Japanese were induced by their foreman to return to the scene once more, and finally plucked up enough courage to extract the teeth from the intact skulls.

The discovery was made shortly after 3 o'clock in the afternoon. Three laborers were working at the Ewa end

of the excavation when they made the discovery, which at first nearly frightened them out of their wits and later made them too proud to continue to do ordinary digging along with their fellows.

No theory as to the identity of the four skeletons has been arrived at, but it is thought by some that the skeletons are remains of bodies buried in the vicinity during a plague fifty years ago. Formerly, there was a cemetery two blocks west of the settlement, and it is said that at one time there was a graveyard in the immediate vicinity.

There is also a theory that perhaps the disinterred remains may be the solution of some forgotten murder mystery in which the perpetrators and victims' friends have been long forgotten. The fact that two of the skulls are missing indicates that two of the victims might have been decapitated before burial.

There were no personal effects of any kind such as rings or money found in the vicinity, and the conclusion has been arrived at that if the skeletons were those of persons who had met with foul play, the bodies had been robbed of every vestige of jewelry and clothing before being buried.

The skeletons were very large and well-proportioned.

## RAINS BREAK LONG DROUGHT ON MAUI AND PROSPECTS BRIGHTEN

(Special Star-Bulletin Correspondence)

WAILUKU, July 9.—Tuesday night there were rains on various parts of Maui. The rain in Kula and at Ulupalakua was sufficient to break the drought of the last few months, and the ranchers feel much encouraged over the cattle prospects. The Kula pipe line has been the only thing that has prevented the drying of the cattle by the thousands. While the residents in Eastern Kula had to depend largely upon their cisterns, which did not entirely run dry in all parts during the drought, the water was turned to the further end of the pipe line, where there was absolutely no water to be had in the cisterns. Here the cattle got their regular supply of water in the big tanks.

At the Haleakala Ranch, however,

there was no shower on Tuesday night so it was reported, and the record of 101 days without rain was unbroken. Never has such a long period been known on this portion of Maui without at least some showers.

At Olinda there was rain above and heavy showers below, but at Olinda itself there was not a drop of rain.

On the cane fields in Makawao and Paia the rain did not end of good, while at Wailuku on Saturday the ditches were filled. On Tuesday afternoon every thing was overflowing because of the freshet. On Tuesday night the whole Wailuku region got a soaker. People as a result feel better and take heart once more over the prospects for the future. The situation had become really serious.

## NEW SUGAR TRUST, TO OPERATE IN FAR EAST, IS NOW REPORTED

News has been received here of an alleged attempt to control the sugar industry in the Far East through means of a trust.

One Exchange says:

"The proceedings of the European sugar conference raised many questions of the distribution of sugar. The possibility of the extension of the cultivation of sugar beets in various European countries has been much agitated but now eyes are more definitely turned towards the East, where conditions exist for the cultivation of the sugar cane, vast areas awaiting exploitation.

"The shrewd financiers prefer to

participate in energies in an approved and tried sphere, rather than devote their capital to experimental schemes at home.

"A British group is taking a great part in the movement, and vast expanses in British India, Burma, and other British centers in the East are to be developed and exploited. Other branches will extend operations to the Philippines, and even to China and Japan.

"The operations, it is reported, will be carried out on a most gigantic scale, and already plans are well forward for the erection of crushing mills and refining establishments in various centers."

## GYMKHANA FOR AUTOS PLANNED

To launch a brand new automobile club, and boost the sport in general, a hui of motor enthusiasts are planning a gasoline gymkhana, to be given at Kapiolani Park some Saturday afternoon next month. The idea is to have a varied list of events, from tilting at the rings, and picking up potatoes in machines, to a sure-enough ten-mile race.

Sydney R. Jordan, of the Hawaii Promotion Committee, formerly secretary of the defunct Automobile Club of Hawaii, is promoter-in-chief. A committee composed of A. L. Castle, Fred Wichman and Ed. Douthitt has taken over the arrangements, and the garages and supply houses of the city stand ready to donate special prizes.

The main idea is to revive interest in organized motoring, and make the meet the first of a regular series.

## SUFFRAGE BUCKET BRIGADE PREVENTS HEAVY FIRE LOSS

CORTE MADERA, July 2.—A dozen or so suffragists who had learned the value of teamwork during the campaign for their cause in this state proved to be the right women in the right place at a lively blaze here today. Forming a bucket brigade and brushing aside a group of loiterers and several of their more timid sisters, they confined the fire to two cottages belonging to Stanley Hilyard and J. Locksmith, and only gave way when volunteer firemen arrived from San Antonio and Ross. Water was scarce, and the timely work of the suffragists is believed to have prevented a heavy fire loss.

Usually, when a married man is young, good-looking and smart, he makes his wife a great deal of trouble.

## ASAHI'S LOSE OUT IN BASEBALL PROTEST

Unless the board of arbitration of the Oahu Senior League reverses the decision of President Charles Chillingworth, which is unlikely, the Asahi Baseball Club loses out in its protest of the thirteen-inning game that was lost to the J. A. C. some weeks ago. In this event the J. A. C. and Star tie for first place in the first half of the league series stands, and must be played off.

The league magnates met at noon today in President Chillingworth's office, and continued the hearing of testimony by the managers, captains and umpires.

Briefly stated, the Asahi's point was that when one of their batsmen was given first for the opposing catcher's interference, Lie Asahi runner attempting to steal home should have been allowed to score, instead of being sent back to third, as the ball was hit by the batsman.

President Chillingworth ruled against this protest, and Manager Abe of the Asahis noted an appeal to the arbitration committee of the league, consisting of A. L. Castle, John Wise and Charles Cottrell.

Arrangements for the tie play-off were continued, pending a decision, and as Manager Abe waived his right to the protested game, saying that he merely wanted the point decided for future reference.

The Stars and J. A. C. will play a series of two out of three games for the championship of the first series, commencing next Sunday. As a curtain-raiser to the contest, the Portuguese will play the Hawaiis. The Asahis and P. A. C. will meet in the first game the following Sunday.

## KAHANAMOKU FUND

(Continued from Page 1)

games, on the night after the lad jumped into national fame by cracking a world's record in the local harbor, said this morning that the house and lot will make a splendid gift.

"It need not be very costly, and the house, of course, would be a modest one," said Mr. Rawlins. "I am thoroughly in sympathy with this idea. Duke's example is a splendid thing for clean amateur sport in Hawaii."

A. L. C. Atkinson suggested yesterday that when Duke comes home, the presentation of the gift be accompanied by a revival of the old-time "hokapu," such as used to greet the return of mighty men of the early days. "The idea of the permanent gift for Duke is a mighty good one," says Atkinson. "Honolulu and Hawaii as a whole can well afford to raise money for this purpose."

The fund now starts off with the following:

Sportsmen	.....\$15
The Clarion	.....10
	.....25

The Star-Bulletin is receiving contributions in cash, by check, postoffice money order or draft. Acknowledgment of the contributions will be made from day to day in these columns, with the name of the donor where this is wished. Contributions are asked, when communicating by letter, to address letters to "Duke Kahanamoku Fund, Care Honolulu Star-Bulletin, Honolulu, T. H."

L. D. TIMMONS, former manager of the Hawaiian Star, was a departing passenger by the Korea. Mr. Timmons goes to the Coast on a short business trip and will probably return by an early steamer.

paring to lay, and not finding one with a number of eggs in it, would collect them from other nests, fetch the lay in, between her breast and bill. Her temper has always been rather peevish, but by speaking gently to her she will rise and let one take eggs from under her; but she has the wildness of the foreign breeds, and is not a pet and does not care to be handled. She has not averaged to cost us over six cents per week.

## Blue Serge Suits

There is no fabric more genteel, than the popular and much-wanted blue Serge.

No gentlemen's wardrobe is complete without a suit of this fabric. They are suitable for all occasions, and always give a man the appearance of being well dressed.

We show these serges in various wales, also fancy weaves.

## You Can't Be Happy With a Headache

Probably more pleasure is spoiled because of headaches than from any other reason. When your head aches it not only makes you unhappy but it is very apt to interfere with the pleasure of everyone else around you. One can't be expected to be very cheerful and pleasant when one's head is simply splitting. And there is no need of suffering. Keep a box of

## Stearns' Headache Wafers (Shac)

In the house when you are at home—carry it in your bag when you travel. That insures you against the annoyance of headaches—your own and other people's.

Stearns' Headache Wafers are as pure as they look, and the snow-white wafers certainly indicate purity in the highest degree. One dose cures, and leaves your head "clear as a bell."

It is so much better than any other kind that your own interest demands that you insist on STEARNS'—the genuine.
